## Gold Coast Barges Vessel Information Sheet "Elvis"

**Suitable for:**

Elvis has a flat deck - and a removable roof that is also a certified Work platform

- Perfect for a work platform.
- Bridge maintenance,
- Safety vessel,
- Passenger transport,
- Floating site office / crib room
- Film making platform
- Building material transport
- Island transfers for builders / passengers

Loading from the bank

Bridge inspections on the Gold Coast.  
As the tide rises or for low bridges - the team use the lower deck to work. If the bridge is very low- platforms can be pushed in front of the punt and held in position while work is carried out.

Higher access from the certified work platform with safety railings.

"Elvis" is an AMSA approved vessel. It is commercially registered and carries on board Safety Management System which instructs the skipper on. We supply required documentation including:

- Safety Management System (emergency procedures, use of safety equipment on board, drills, safe vessel operations)
- Ship's logs, which are mandatory in commercial watercraft. This schedules and records safety drills and vessel maintenance and procedures.

**Wet Hire**, where we provide an experienced skipper to ensure your safety and the vessel's best practice.

**Dry Hire**, providing the hirer is approved and employs a skipper with correct tickets. We provide induction training in operating the vessel and understanding the SMS and required record keeping.

- ✓ Fully insured.
- ✓ Can be dry hired or wet hired
- ✓ Can provide ticketed, experienced skipper
- ✓ Commercially registered work punt
- ✓ All safety equipment and required paperwork
